President of Wake Forest College
Winston-Salem, N. C.

Dear Sir:

From the daily papers we see that Wake Forest remained steady on March 29th in this age of "liberalism"---the mixing socially and otherwise of the races. The vote of 742 to 282 is heartening. I wish to offer my appreciation to your student Jack Pryor for his forthright stand.

It is unthinkable that our people will countenance inter-marriage and social mixing---for of course that is the ultimate goal. Just to get admitted to the college is to get a foothold---and THEN.

I am an Episcopalian, but my wife's great, great grandfather, Sam'l Wait was the College's first president 1834-1845. Here's hoping old Wake can continue on a even keel. Incidentally, I favor Beverly Lake for Governor/

Very truly
